

## **ETHICAL & ENVIRONMENTAL POLICY**

### **Our Ethos:**

As an organisation, CleanConscience aims to reflect our ethos in encouraging creativity, ecology, spirituality and frugality. We actively promote policies and working practices that support equal opportunities and sustainable living both within the organisation and in the wider community.

### **Soap and Toiletry Recycling – collection, production and distribution:**

We are constantly looking for ways to reduce the environmental impact associated with our operations.

### **Personnel:**

We aim to provide a working environment that enables our staff to have a healthy balance between work, family commitments and other interests.

### **Office supplies and domestics:**

In our office management we aim to 'reduce, reuse and recycle' wherever possible. We actively support local businesses and source ethical products.
