

New concept in Hotel Guest Room recycling – Decotel **UBINECO!**

Decotel is pleased to announce the launch of **UBINECO**, an innovative and unique new product that allows hoteliers to incorporate cost effective recycling facilities within their guest bedrooms.

UBINECO fits discreetly within the waste paper bin and allows for dry recycling of newspapers, card, metal drinks cans and recyclable plastics. Hoteliers have welcomed this initiative which was introduced following extensive research into the market and the lack of an aesthetically pleasing and cost effective product.

Aside from the benefits in use, **UBINECO** is manufactured in the UK and made using wipe clean Recyclable Green Polypropylene.

Testimonial from Housekeeping Manager Beaufort House Services Ltd: *"I want to pass on my sincere thanks to Decotel for coming up with the concept of the Ubineco waste bin inserts. They are easy to use and an inexpensive solution to those of us wanting to increase our recycling targets. I was somewhat sceptical as to whether our Guests would use them but I am pleased to say this scepticism was unfounded and we have almost tripled our recycling. Well done Decotel".*

- Fits into most 7 litre to 9 litre round and straight sided bedroom bins.
- British Made
- 2 year warranty
- European wide Design Patent

Decotel Limited, Cumberland Road, Loughborough, Leicestershire. LE11 5DE.
